Subject Summaries

Here is a summary of what we learned in each subject this week:

Math – We jumped right in with multiplication this week! It is so important that your child knows his/her math facts, please make sure your child is practicing his/her math facts at home.

Reading – We will be utilizing a new program this year called "Schoolwide" in reading this year. We started reviewing why it is so important we read. Please make sure your child is reading at least 20 minutes each night at home.

Writing – We wrote about what we did this summer and about how we felt on the first day of school.

Absent Work

Your child is responsible for making sure they have all the work they missed due to an absence. They are also responsible completing it and returning it in the required time.

In the future, I will not be sending my newsletters home on paper, only via email. Please let me know if you did not receive an email from me, or want me to send a paper copy.

Upcoming Events/Reminders

Thu. Aug. 30 – Curriculum Night 6:00-7:30

Welcome back! I hope everyone enjoyed their summer and is ready for 3rd grade. I am so excited to get this year off to a good start! This will be the format of my newsletter every week, only as the year gets going there will be more information added.

Each week, your child will be bringing home a Weekly Folder that will have any graded papers and important notes from the week. Most information will be posted on my site, the district site, or both. We are really trying to reduce the amount of paper being used. If you require a paper copy, please let me know. This will also be my way of communicating with you about your child's behavior for the week.
