## **Subject Summaries**

Here is a summary of what we learned in each subject this week:

**Math** – We continued with multiplication and division this week! It is so important that your child knows his/her math facts, please make sure your child is practicing his/her math facts at home.

**Reading** – We will be utilizing a new program this year called "Schoolwide" in reading this year. We continued to practice the expectations while discussing literature in small groups while we are reading. It is so important that we discuss literature in order to deepen our understanding and become better readers. Please make sure your child is reading at least 20 minutes each night at home.

**Writing** – We started to dive into our writer's workshop this week. We are learning what a writer's workshop is and the expectations during that time.

**Social Studies** – We started to explore how we adapt to live in different regions of the United States. We also started to look specifically at the state of Illinois.

## **Absent Work**

Your child is responsible for making sure they have all the work they missed due to an absence. They are also responsible completing it and returning it in the required time.

## **Upcoming Events/Reminders**

**Thu. 9/20** – Communities Assessment  
**Fri. 9/21** – Early Release @ 1:30

Each week, your child will be bringing home a Weekly Folder that will have any graded papers and important notes from the week. Most information will be posted on my site, the district site, or both. We are really trying to reduce the amount of paper being used. If you require a paper copy, please let me know. This will also be my way of communicating with you about your child's behavior for the week.

## **Star Student**

Our Star Student this week is **Aileen!!!!** She has done such a great job of contributing to our Classroom discussions and helping her Classmates stay on task. Keep it up girl!!!!
