## **Subject Summaries**

Here is a summary of what we learned in each subject this week:

**Math** – We finished multiplication and division this week, and were assessed today, look for those next week! It is so important that your child knows his/her math facts, please make sure your child is practicing his/her math facts at home.

**Reading** – We will be utilizing a new program this year called "Schoolwide" in reading this year. We started to explore fiction and the elements of fiction!!! Please make sure your child is reading at least 20 minutes each night at home.

**Writing** – We continued to brainstorm ideas that we could use for persuading others.

**Social Studies** – We started exploring how humans change the physical characteristics of a community.

## **Absent Work**

Your child is responsible for making sure they have all the work they missed due to an absence. They are also responsible completing it and returning it in the required time.

## **Upcoming Events/Reminders**

**Mon. 10/1** – "Shrek" Field Trip  
Permission Slips Due

**Fri. 10/5** – Early Release @ 1:30

Each week, your child will be bringing home a Weekly Folder that will have any graded papers and important notes from the week. Most information will be posted on my site, the district site, or both. We are really trying to reduce the amount of paper being used. If you require a paper copy, please let me know. This will also be my way of communicating with you about your child's behavior for the week.

## **Star Student**

Our Star Student this week is **Valery!!!!** She has done a great job this week of really pushing herself, I am so proud of you!!!
